BHARATIYA LINGAYAT DEVELOPMENT EDUCATIONAL ASSOCIATION

The Bharatiya Lingayat Development Educational Association (Formerly Bijapur Lingayat District Educational Association), Vijayapur-586103, Karnataka. was founded in the year 1910 with the objective of imparting quality education. BLDEA currently runs more than 80 educational institutions and is thereby making a significant contribution to India's development. Since inception, the association has been working with a deep sense of commitment to bring about multi-lateral development in a wider section of population through an extensive network of educational institutions. BLDEA's College of Pharmacy, Jamkhandi established in the year 2023 to cater to the needs of pharmacy.

BRIEF INTRODUCTION OF THE JAMKHANDI

Jamkhandi is a historical place once ruled during pre-independence days by Raja Patwardhan of Poona. Foresighted Raja Patwardhan was a lover of education and started educational institution at higher secondary level in a giant building in the heart of the town in 1882. He extended his co-operation and support for spreading education till the last day of his regime.

There were no higher educational institutes in Jamkhandi for the aspirants of this area to pursue higher education. However, Raja Patwardhan continued his support and help by inviting outstanding students of this area to Poona for continuing higher education in S. P. College and provided free boarding and lodging facilities even during post-independence days. This was not sufficient to cover all the people belonging to economically, educationally, socially backward classes.

The need arises to fulfill the basic demand of the common people. Under such circumstances, selfless service organization, the B.L.D.E. Association started Commerce, B.H.S. Arts and T.G.P. Science College at Jamkhandi in 1963 and housed in the beautiful palatial buildings situated on the hillocks of Jamkhandi. The College has been permanently affiliated to Rani Channamma University, Belagavi.

The liberal donation from Smt. Bhagirathibai Hanumantagouda Savakar of Bidari (B.H.S.) and Sri Gurusiddappagouda Patil of Tungal (T.G.P.) made the task of providing the necessary infrastructure to this college more simple.

Swimming Pool, Indoor Stadium, Ladies hostel, Boys hostel, Health Fitness Centre, Historic Mammoth Polo ground, Botanical garden with special and very rare species and campus with over 58 acres 31 guntas of land are the special features of this college.

VISION

To provide quality pharmaceutical education, practice & research with global standards & to meet healthcare needs of backward region of North Karnataka.

MISSION

To empower graduates in application based knowledge with high degree of professional integrity & ethics.

Prospects

The pharmaceutical industry in India is growing at a rapid pace, as a result of spurt in the number of hospitals, nursing homes and pharmaceutical companies. It indicates the increasing scope in this sector. A course in Pharmacy definitely offers reasonably good career opportunities by way of job opportunities in the job market and scope for self-employment. The job opportunities for pharmacy graduates in India and in International level are as follows.

1. **Pharmaceutical Industry:** R & D, F & D, production, quality control, quality assurance or marketing of new drugs for clinical use (medical representatives).
2. **Basis for Higher Education:** M. Pharm or PhD holders can engage in research work like developing new drug molecules in pharmaceutical industry and analyzing them for application.
3. **Government Departments:** Drug control administration as a Drug Inspector or Government Analyst and Hospital Pharmacist in Armed Forces, Railways and Primary Health Care Centers. Pharmacists also have job opportunities in the Department of Health and Family Welfare, Pest Control Division of Agriculture, Department of National Defence, Provincial Research Councils and the Provincial Departments of Agriculture or Environment
4. **University:** Teaching and Research.
5. **A career abroad:** Hospital and clinical pharmacist, QA & QC scientist, regulatory expert, academics, production officer, etc.
6. **Consultancy Services:** Pharmacy graduates can work as consultants for industry and academic centers.
7. **Self-employment:** A diploma or degree holder in Pharmacy, after registering with the State Pharmacy Council, can set-up and run a pharmacy or chemists and druggists shop (retail as well as wholesale).
8. **Clinical Research:** Worldwide opportunity in contract.

Salary Potential

Approximate earnings per month of the newly employed Pharmacy Graduates.

- Along with contributory provident fund, D.A., insurance, medical reimbursement, and other allowances and benefits as per government rules, average salary of a Pharmacist is around Rs 20,000.
- Research scientists: Rs. 50,000-60,000
- Medical representatives: Rs. 20,000 incentives 25,000 +
- Manufacturing Pharmacists: Rs. 20,000 +
- Hospital Pharmacists: Rs. 20,000 - 25,000
